The world's most populous nation and soon-to-be largest economy is rapidly turning into the planet's most efficient assassin. Unscrupulous Chinese entrepreneurs are flooding world markets with lethal products. China's perverse form of capitalism combines illegal mercantilist and protectionist weapons to pick off American industries, job by job. China's emboldened military is racing towards head-on confrontation with the U.S. Meanwhile, America's executives, politicians, and even academics remain silent about the looming threat. Now, best-selling author and noted economist Peter Navarro meticulously exposes every form of "Death by China," drawing on the latest trends and events to show a relationship spiraling out of control.

Death by China reveals how thousands of Chinese cyber dissidents are being imprisoned in "Google Gulags"; how Chinese hackers are escalating coordinated cyberattacks on U.S. defense and America's key businesses; how China's undervalued currency is damaging the U.S., Europe, and the global recovery; why American companies are discovering that the risks of operating in China are even worse than they imagined; how China is promoting nuclear proliferation in its pursuit of oil; and how the media distorts the China story--including a "Hall of Shame" of America's worst China apologists.

This book doesn't just catalogue China's abuses: It presents a call to action and a survival guide for a critical juncture in America's history--and the world's.
