## **Foliage plants** Christopher Lloyd

If you want to make a satisfying garden you have to pay at least as much attention to foliage as to flowers. In this classic work gardening guru Christopher Lloyd tells us all we need to about using leaves in the garden - what to look for, what to avoid, shapes, sizes, habits, textures and colours. Writing with the skill and pleasure which distinguish his other classic, *The Well Tempered Garden*, he offers plants of every kind, from shrubs to grasses - evergreen and deciduous, hardy and tender, perennials and annuals, all of them worth growing for their foliage as well as for their flowers. He also suggests, with the aid of sketches and plans, what can be done with them in different positions, from the shady border to the sunny bed.
