## **Money and Totality: A Macro-Monetary Interpretation of Marx's Logic in Capital and the End of the 'Transformation Problem' (Historical Materialism Book)** Fred Moseley

This ambitious book presents a comprehensive new 'macro-monetary' interpretation of Marx's logical method in *Capital*, based on substantial textual evidence, which emphasises two main points: (1) Marx's theory is primarily a macroeconomic theory of the total surplus-value produced in the economy as a whole; and (2) Marx's theory is a monetary theory from beginning to end and the circuit of money capital M - C - M is the logical framework of Marx's theory. It follows from this 'macro-monetary' interpretation that, contrary to the prevailing view, there is no 'transformation problem' in Marx's theory; i.e., Marx did not 'fail to transform the inputs of constant capital and variable capital' in his theory of prices of production in Part 2 of Volume III."
