Nationalism and Identity in Romania: A History of Extreme Politics from the Birth of the State to EU Accession (International Library of Political Studies) Radu Cinopoes

The collapse of communism in Central and Eastern Europe produced a fundamental change in the political map of Europe. In Romania, nationalism re-emerged forcefully and continued to rally political support against the context of a long and difficult transition to democracy. Extreme right-wing party The Greater Romania Party gained particular strength as a major political power, and its persuasive appeal rested on a reiteration of nationalism and identity -- and themes such as origins, historical continuity, leadership, morality and religion -- that had been embedded in Romanian ideological discourse by earlier nationalist formations. Radu Cinpoe here examines the reasons for the strength and resilience of nationalism in Romania, from the formation of the state to its accession in the EU.
