## **The Moon (Take-off!: Space Observer)** Jenny Tesar

Part of a collection of titles introducing the planets and solar system to nine-year-old reluctant readers, this book focuses on the moon. It is part of the "Take-Off" series which is designed to be used by children at the age of nine who are struggling to achieve the levels of literacy expected of their age. The titles chosen are based on best-selling titles within existing Heinemann Library series, and meet all Key Stage 2 requirements for the subject. The National Literacy Strategy emphasizes that children with special educational needs should work, wherever possible, with their peers within the Literacy Hour. The aim is to use structured, intensive teaching to enable as many children as possible eventually to work at the appropriate level for their age.
