Atlas of Prokaryotic Viruses

Hans W. Ackerman, David Prangishvili, Richard Janvier

Atlas of Prokaryotic Viruses Hans W. Ackerman, David Prangishvili, Richard Janvier

Despite the large numbers of prokaryote viruses and their morphological diversity and ubiquity, there is no atlas illustrating them. This situation contrasts with the attention given to animal and plant viruses, which have been relatively well illustrated. This book will correct this oversight and illustrate prokaryotic viruses of two general types: archaeal viruses and bacterial viruses.
