## **The Unthought In Contemporary Islamic Thought** Mohammed Arkoun

Mohammed Arkoun is one of the Muslim world's foremost thinkers. His efforts to liberate Islamic history from dogmatic constructs have led him to a radical review of traditional history.

Drawing on a combination of pertinent disciplines ? history, sociology, psychology and anthropology ? his approach subjects every system of belief and non-belief, every tradition of exegesis, theology and jurisprudence to a critique aimed at liberating reason from the grip of dogmatic postulates.

By treating Islam as a religion as well as a time-honoured tradition of thought, Arkoun's work aims at overcoming the limitations of descriptive, narrative and chronological modes in history by recommending that the entire development of Islamic thought ? from Quranic to present-day fundamentalist discourses ? be subjected to a critical analysis guided by these categories.

The expected outcome of such a strategy is an emancipated political reason working hand in hand with a truly creative imagination for a radical re-construction of mind and society in the contemporary Muslim world.
