Invisible Planets Hannu Rajaniemi

Hannu Rajaniemi exploded onto the SF scene in 2010 with the publication of his first novel *The Quantum Thief*. Acclaimed by fellow authors such as Charles Stross, Adam Roberts and Alastair Reynolds and brilliantly reviewed everywhere from *Interzone* to the *Times* and the *Guardian* he swiftly established a reputation as an author who could combine extraordinary cutting edge science with beautiful prose and deliver it all with wit, warmth and a delight in the fun of storytelling.

It is exactly these qualities that are showcased in this his first collection of short stories. Drawn from anthologies and magazines and online publication and brought together in book form for the first time in this collection here is a collection of sixteen short stories that range from the lyrical to the bizarre, from the elegiac to the impish. It is a collection that shows one of the great new imaginations in SF having immense fun.
