Hippocrates

Hippocrates: Epidemics 2, 4-7 (Loeb Classical Library No. 477) Hippocrates

The medical treatises collected under Hippocrates' name are essential sources of information about the practice of medicine in antiquity and about Greek theories concerning the human body. In this seventh volume of the ongoing Loeb edition of the Hippocratic Collection, Wesley Smith presents the first modern English translation of Books 2 and 4–7 of the *Epidemics* (the other two books are available in the first volume).

In the casebooks and notes that make up the seven books called *Epidemics*—the title originally meant 'visits'—we can watch ancient physicians observing patients, noting and pondering symptoms, evaluating treatments, and developing theories about the body. They appear to be physicians' notebooks from several areas of the Aegean basin. Smith supplements his clear translation with explanatory notes.

The other works available in the Loeb Classical Library edition of Hippocrates are the following. Volume I: Ancient Medicine. Airs, Waters, Places. Epidemics 1 and 3. The Oath. Precepts. Nutriment. Volume II: Prognostic. Regimen in Acute Diseases. The Sacred Disease. The Art. Breaths. Law. Decorum. Physician (Ch. 1). Dentition. Volume III: On Wounds in the Head. In the Surgery. On Fractures. On Joints. Mochlicon. Volume IV: Nature of Man. Regimen in Health. Humours. Aphorisms. Regimen 1–3. Dreams. Volume V: Affections. Diseases 1–2. Volume VI: Diseases 3. Internal Affections. Regimen in Acute Diseases. Volume VIII: Places in Man. Glands. Fleshes. Prorrhetic I–II. Physician. Use of Liquids. Ulcers. Haemorrhoids and Fistulas. Volume IV also contains the fragments of Heraclitus, On the Universe.
