**The Handbook of Evolutionary Economic Geography** Ron Boschma, Ron Martin

This wide-ranging *Handbook* is the first major compilation of the theoretical and empirical research that is forging the new and exciting paradigm of evolutionary economic geography.

The book's distinguished contributors set out the theoretical, methodological and empirical foundations of an evolutionary perspective on the economic landscape. In so doing, they explore the interplay between organizational dynamics, industrial dynamics and space; analyze the nature and spatial evolution of networks; address the evolution of institutions in territorial contexts; and explore the evolution of agglomerations and clusters.

This original reference work will undoubtedly play an important and formative role in influencing the future research agenda of evolutionary economic geography. It will strongly appeal to scholars, researchers and students in economic geography, regional economics, evolutionary economics, industrial economics, management and organizational studies, and related fields.

**Contributors:** C. Antonelli, R. Boschma, G. Bottazzi, S. Breschi, U. Cantner, G. Cioccarelli, P. Cooke, M.S. Dahl, B. Dalum, C. de Laurentis, S. Denicolai, P. Dindo, J. Essletzbichler, L.
