Global IT Outsourcing: Software Development across Borders Sundeep Sahay, Brian Nicholson, S. Krishna

Offering key insights into how to manage software development across international boundaries, this book is based on a series of case studies looking at the relationships between firms from North America, the U.K., Japan and Korea with Indian software companies. The authors analyze the multi-faceted challenges encountered in managing these Global Software Alliances (GSAs). They draw on extensive research and experience to offer constructive advice on how to manage GSAs more effectively.
