On May 9, 2001, the Disclosure Project hosted a major event at the National Press Club in Washington, D.C. This historic event had witness testimony from twenty to twenty-five military, intelligence, government, and corporate individuals involved with UFO projects over the past fifty years, who presented their information before a worldwide group of media correspondents.

"Those of us who were military witnesses of UFO history showed official government documentation with detailed testimony. Our focus was and is on the facts and documents. Our purpose was and is to get the mainstream media and government officials to hear those facts and move us toward an honest congressional inquiry.

"We who came forward want to ban weapons from space and stop aggressively shooting down these space vehicles and their extraterrestrial occupants. We need to declassify the advanced electromagnetic propulsion systems in use by the secret government, start producing them for the world to use, and thereby help save this planet.

"The people who had been employed in agencies within the military and knew the truth about UFOs were sworn to secrecy. Now I am finally relieved to speak the truth. We military men who hold on to this knowledge are getting old and dying, and we want the truth to come out. We will either do it ourselves or leave it for our children and wives to do.

"Personally, I have told those on Capitol Hill that I am being led to do it by the aliens themselves. They have convinced me that it is time. They have been waiting on the government, and if the government does not come forward with the truth, then the aliens will take a more public role in disclosure."
