Vividly discover what happens when you push and pull an object! Whether you're pulling a rope in a game of tug-of-war or pushing through the motions of riding a bike, you push and pull throughout the day for many different reasons! Featuring vivid photographs, this engaging wordless book aligns with Next Generation Science Standards to teach early learners about forces and interactions. Students will be excited to learn about the reactions that take place when pushing or pulling an object and can collaborate together to determine the action being performed in each lively photograph.

## **About Shell Education**

Rachelle Cracchiolo started the company with a friend and fellow teacher. Both were eager to share their ideas and passion for education with other classroom leaders. What began as a hobby, selling lesson plans to local stores, became a part-time job after a full day of teaching, and eventually blossomed into Teacher Created Materials. The story continued in 2004 with the launch of Shell Education and the introduction of professional resources and classroom application books designed to support Teacher Created Materials curriculum resources. Today, Teacher Created Materials and Shell Education are two of the most recognized names in educational publishing around the world.
