## **An Introduction to Air Law I. Diederiks-Verschoor**

An Introduction to Air Law offers a comprehensive and up-to-date view of all the main components making up this interesting and topical branch of international law. The material has been spread over ten chapters, and includes items such as liability of the carrier, insurance, product liability, sovereignty in airspace, offenses such as hijacking, and assistance and salvage. The main themes of the book are the so-called Warsaw Convention and the Chicago Convention on Civil Aviation, being the two pillars of support of the present-day aviation legislation. The text of this edition has been considerably modified in view of recent events and current developments. A number of relevant new cases has been added. An index by subject and an extensive bibliography complete the volume.
