Now more than ever, the ability to sight-read fluently is an essential part of the training of musicians of any instrument. This workbook is designed to help overcome the nerves that can cause sight-reading problems, by ensuring sound technique and approach and by providing confidence boosting tips. Step-by-step it helps the student to build up a complete picture of each piece, first through rhythmic and melodic exercises related to specific problems, then by the study of a prepared piece with associated questions for the student to answer. Finally, it takes students through the real, unprepared sight-reading test itself.
