"Connie Strasheim's book is a MUST-READ for anyone who has Lyme disease; for those who suspect that they might have it or who are concerned about exposure to it, and for those who have friends or family members with it. It is packed with plenty of NEW, useful and easy-to-understand information about Lyme, its coinfections and various co-conditions. For this book, Connie interviewed ten leading Lyme specialists, including one from Germany, one from Canada and eight from the USA -all of which have an integrative approach to treatment. The experts all agree that certain treatment steps are essential for recovery, but all have a unique treatment approach and provide their own pearls of wisdom. I congratulate Connie for a job VERY well done!"

- W. Lee Cowden, MD, MD(H)Chairman, Scientific Advisory Board Academy of Comprehensive Integrative Medicine

Recent years have brought dramatic changes in how top doctors are treating Lyme disease. New paradigms in Lyme disease treatment have emerged and are helping people to recover, even those that have failed years of treatments. This book is based on interviews with ten leading Lyme doctors, and takes you deep into their treatment programs, so you can see for yourself what is new and different about modern Lyme treatment. No matter how many Lyme disease books you've already read, you don't want to miss the new treatment strategies presented in this book.

Writer Connie Strasheim is no stranger to interviewing Lyme disease doctors. This is the second doctor interview book she has written on the topic of treating Lyme disease. Her first, entitled Insights Into Lyme Disease Treatment, has sold more than 15,000 copies and was based on interviews with over a dozen Lyme-treating physicians. Connie's experience in health care journalism (with a specific focus on Lyme disease) has allowed her to become an expert in extracting only the most important information from busy doctors who have a treasure vault of Lyme treatment wisdom stored in their brains. In her interviews with the doctors, Connie asks a broad array of questions designed to bring you the most cutting-edge, practical, and useful information possible.

The Internet age has ushered in a near-infinite number of ways to research Lyme disease. But wisdom on the best way to successfully overcome Lyme disease isn't found in a Google search, but instead, is contained within the minds of doctors who treat this disease day-in and day-out, and who have experience treating thousands of patients.

Traveling to have appointments with each of the doctors interviewed in this book would take weeks, and cost thousands of dollars. And even if you did make the trips, would the doctors have enough time to answer all of your questions? Would you even know which questions to ask? Here, Connie does all the hard work for you, so that you can read about new, important paradigms and tools in Lyme disease treatment from the comfort of your own home. These tools, which are bringing healing, life, and new hope to thousands, may do just the same for you!
