**SAE J1939 ECU Programming & Vehicle Bus Simulation with Arduino** Wilfried Voss
This book, written by a leading expert in the field of Controller Area Network (CAN) technologies, represents the perfect guide to implementing an SAE J1939 protocol stack for embedded systems. The book is filled with numerous C/C++ code examples and valuable documentation of the resulting J1939 vehicle network data traffic. It explains in great detail the inner workings of the protocol through designing and transmitting J1939 data frames, receiving and processing J1939 data frames, and simulating J1939 ECUs (Electronic Control Units). Other Arduino sketches (software projects) include a J1939 network scanner, and a simple SAE J1939 to USB Gateway application with associated Windows GUI (Visual Studio C# project). The collection of sketches is concluded by the ARD1939 project, a fully functional SAE J1939 protocol stack for the Arduino Uno and Mega 2560. As an added value, the included proof of concept explains (by means of code examples and bus traffic recordings) the details of the Transport Protocol (TP) according to SAE J1939/21 (BAM Session, RTS/CTS Session) and the Address Claim Procedure according to SAE J1939/81. In combination with the low-cost and high-level user-friendliness approach of the Arduino environment, this book represents the ideal platform to learning and implementing embedded applications with the SAE J1939 protocol stack.

**From reader reviews:**

**Brent Henderson:**

Do you have favorite book? If you have, what is your favorite's book? Publication is very important thing for us to learn everything in the world. Each book has different aim or perhaps goal; it means that reserve has different type. Some people truly feel enjoy to spend their the perfect time to read a book. They may be reading whatever they acquire because their hobby is definitely reading a book. How about the person who don't like looking at a book? Sometime, man or woman feel need book if they found difficult problem or perhaps exercise. Well, probably you will require this SAE J1939 ECU Programming & Vehicle Bus Simulation with Arduino.

**Linda Henderson:**

Book is written, printed, or outlined for everything. You can understand everything you want by a guide. Book has a different type. To be sure that book is important issue to bring us around the world. Alongside that you can your reading skill was fluently. A publication SAE J1939 ECU Programming & Vehicle Bus Simulation with Arduino will make you to possibly be smarter. You can feel considerably more confidence if you can know about every thing. But some of you think in which open or reading a book make you bored. It is far from make you fun. Why they can be thought like that? Have you trying to find best book or suitable book with you?

**Sidney Robertson:**

Information is provisions for people to get better life, information currently can get by anyone with everywhere. The information can be a knowledge or any news even a huge concern. What people must be consider if those information which is within the former life are challenging to be find than now is taking seriously which one is suitable to believe or which one often the resource are convinced. If you obtain the unstable resource then you obtain it as your main information there will be huge disadvantage for you. All those possibilities will not happen with you if you take SAE J1939 ECU Programming & Vehicle Bus Simulation with Arduino as the daily resource information.

**Clyde Traynor:**

What is your hobby? Have you heard that question when you got learners? We believe that that issue was given by teacher with their students. Many kinds of hobby, Everybody has different hobby. And you also know that little person including reading or as reading become their hobby. You must know that reading is very important along with book as to be the factor. Book is important thing to add you knowledge, except your own personal teacher or lecturer. You get good news or update about something by book. A substantial number of sorts of books that can you take to be your object. One of them is this SAE J1939 ECU Programming & Vehicle Bus Simulation with Arduino.
