Adventures in Single Parenting Len Mooney

This is a book about single parenting. It is written by someone who has been there: someone who learned about single parenting the hard way. Someone who learned the old fashioned way - by doing it. I learned a lot of things that don't work by trying them. What I am doing here is writing the book I wish I had read before the kids moved in. I am a man and even though I know it is still rare to find single fathers with all the responsibility, I was, and still am, a member of that rare breed: the single father. Recent statistics indicate we (single fathers) only account for 17.4% of the population of single parents. When I started this book, I thought it was going to be about single fathering. I originally intended it to be a book for men who were single parents. As I thought about it and wrote about single fathering, I realized that most of my experiences were similar to the experiences of my lady friends who were also single parents. I came to understand that this was not just about single fathering but also about single mothering. That's when I realized that there is very little distinction between single fathering and single mothering. In fact, the single parent is both the mommy and the daddy all rolled up into one. This is a book I wish I could have read before the kids came to live with me full time. I hope you get as much out of it as I put into it. If you only find one nugget of wisdom in these pages to help you and your children grow together, I will have succeeded. If the book helps immensely, I will have succeeded beyond my wildest dreams

From reader reviews:

John Alfaro:

Information is provisions for individuals to get better life, information nowadays can get by anyone on everywhere. The information can be a knowledge or any news even an issue. What people must be consider any time those information which is from the former life are hard to be find than now could be taking seriously which one is appropriate to believe or which one the particular resource are convinced. If you get the unstable resource then you have it as your main information you will have huge disadvantage for you. All of those possibilities will not happen in you if you take Adventures in Single Parenting as the daily resource information.

Jena Alvarez:

People live in this new moment of lifestyle always aim to and must have the free time or they will get great deal of stress from both lifestyle and work. So , once we ask do people have spare time, we will say absolutely indeed. People is human not only a robot. Then we request again, what kind of activity have you got when the spare time coming to you of course your answer can unlimited right. Then do you ever try this one, reading ebooks. It can be your alternative within spending your spare time, the particular book you have read is actually Adventures in Single Parenting.

Jack Godina:

In this time globalization it is important to someone to obtain information. The information will make someone to understand the condition of the world. The fitness of the world makes the information quicker to share. You can find a lot of sources to get information example: internet, classifieds, book, and soon. You can observe that now, a lot of publisher that will print many kinds of book. The particular book that recommended to you is Adventures in Single Parenting this book consist a lot of the information with the condition of this world now. This book was represented just how can the world has grown up. The dialect styles that writer require to explain it is easy to understand. The actual writer made some exploration when he makes this book. Honestly, that is why this book suitable all of you.

Robert Barker:

As we know that book is very important thing to add our knowledge for everything. By a e-book we can know everything we really wish for. A book is a pair of written, printed, illustrated as well as blank sheet. Every year had been exactly added. This guide Adventures in Single Parenting was filled about science. Spend your spare time to add your knowledge about your technology competence. Some people has diverse feel when they reading a book. If you know how big good thing about a book, you can truly feel enjoy to read a e-book. In the modern era like currently, many ways to get book which you wanted.
