23 European Symposium on Computer Aided Process Engineering: Dynamic modelling and control of a pilot plant for post-combustion CO2 capture (Computer Aided Chemical Engineering) Grégoire Léonard, Bruno Cabeza Mogador, Ségolène Belletante, Georges Heyen

A dynamic model of a post-combustion capture pilot plant is developed using Aspen Plus Dynamics. An innovative process control strategy is studied for regulating the water balance of the process. A washing section where the flue gas from the absorber is washed with cold water is included to the process in order to reduce the emissions of amine to the air. Control of the water balance in the solvent loop is successfully achieved by changing the washing water temperature. In previous publications regarding CO2 capture pilot plants, the regulation of the water balance always required a water make-up flow which appears here as unnecessary. Rejection of disturbances and different load reduction scenarios are tested to confirm the efficiency of this strategy. Potential operational problems of this control strategy are identified and solved.

From reader reviews:

Mary Goldstein:

In other case, little folks like to read book 23 European Symposium on Computer Aided Process Engineering: Dynamic modelling and control of a pilot plant for post-combustion CO2 capture (Computer Aided Chemical Engineering). You can choose the best book if you want reading a book. Provided that we know about how is important a book 23 European Symposium on Computer Aided Process Engineering: Dynamic modelling and control of a pilot plant for post-combustion CO2 capture (Computer Aided Chemical Engineering). You can add understanding and of course you can around the world by just a book. Absolutely right, mainly because from book you can recognize everything! From your country until foreign or abroad you will be known. About simple point until wonderful thing you can know that. In this era, we could open a book or maybe searching by internet product. It is called e-book. You should use it when you feel weary to go to the library. Let's learn.

Sharon Bufkin:

Typically the book 23 European Symposium on Computer Aided Process Engineering: Dynamic modelling and control of a pilot plant for post-combustion CO2 capture (Computer Aided Chemical Engineering) will bring one to the new experience of reading the book. The author style to spell out the idea is very unique. Should you try to find new book to read, this book very ideal to you. The book 23 European Symposium on Computer Aided Process Engineering: Dynamic modelling and control of a pilot plant for post-combustion CO2 capture (Computer Aided Chemical Engineering) is much recommended to you you just read. You can also get the e-book through the official web site, so you can more readily to read the book.

Ruby Freeman:

Do you have something that you want such as book? The publication lovers usually prefer to pick book like comic, brief story and the biggest an example may be novel. Now, why not striving 23 European Symposium on Computer Aided Process Engineering: Dynamic modelling and control of a pilot plant for post-combustion CO2 capture (Computer Aided Chemical Engineering) that give your entertainment preference will be satisfied by reading this book. Reading habit all over the world can be said as the opportunity for people to know world better then how they react in the direction of the world. It can't be mentioned constantly that reading addiction only for the geeky person but for all of you who wants to always be success person. So , for every you who want to start examining as your good habit, you may pick 23 European Symposium on Computer Aided Process Engineering: Dynamic modelling and control of a pilot plant for post-combustion CO2 capture (Computer Aided Chemical Engineering) become your current starter.

Charles Anderson:

This 23 European Symposium on Computer Aided Process Engineering: Dynamic modelling and control of a pilot plant for post-combustion CO2 capture (Computer Aided Chemical Engineering) is great guide for you because the content that is full of information for you who else always deal with world and get to make decision every minute. This kind of book reveal it information accurately using great coordinate word or we can declare no rambling sentences within it. So if you are read the idea hurriedly you can have whole info in it. Doesn't mean it only gives you straight forward sentences but hard core information with lovely delivering sentences. Having 23 European Symposium on Computer Aided Process Engineering: Dynamic modelling and control of a pilot plant for post-combustion CO2 capture (Computer Aided Chemical Engineering) in your hand like finding the world in your arm, information in it is not ridiculous 1. We can say that no guide that offer you world in ten or fifteen tiny right but this e-book already do that. So , this really is good reading book. Heya Mr. and Mrs. stressful do you still doubt that will?
