The Babylon Code: Solving the Bible's Greatest End-Times Mystery Paul McGuire, Troy Anderson
What if God embedded a code in the Bible that could only be cracked in the end times--a prophetic cypher that reveals how the four blood moons and the biblical Shemitah are just signs of the beginning of end-time events?

Unlocking a great mystery that has puzzled scholars for nearly two thousand years, THE BABYLON CODE reveals how powerful forces are now at work to create a global government, cashless society, and universal religion as predicted by the prophets.

The result of a five-year journalistic investigation, THE BABYLON CODE takes readers on a spellbinding journey to explore the link between the world's most secret organizations, the Bible's greatest prophetic riddle, and what world-renowned evangelist Billy Graham describes as a convergence in end-time signs for the first time in history.

This prophetic mystery book pieces together the apocalyptic puzzle--uncovering what may be not only the biggest story and political scandal in modern history, but also the secret to both our survival and our salvation.
