Differential Geometry of Lightlike Submanifolds (Frontiers in Mathematics)

Krishan Duggal, Bayram Sahin

Differential Geometry of Lightlike Submanifolds (Frontiers in Mathematics) Krishan Duggal, Bayram Sahin

This book presents research on the latest developments in differential geometry of lightlike (degenerate) subspaces. The main focus is on hypersurfaces and a variety of submanifolds of indefinite Kählerian, Sasakian and quaternion Kähler manifolds.

From reader reviews:

Robert Russo:

What do you with regards to book? It is not important to you? Or just adding material if you want something to explain what you problem? How about your free time? Or are you busy man or woman? If you don't have spare time to accomplish others business, it is make you feel bored faster. And you have spare time? What did you do? All people has many questions above. The doctor has to answer that question mainly because just their can do that. It said that about reserve. Book is familiar in each person. Yes, it is suitable. Because start from on jardín de infancia until university need this Differential Geometry of Lightlike Submanifolds (Frontiers in Mathematics) to read.

Sarah Porter:

Do you one of people who can't read pleasurable if the sentence chained inside straightway, hold on guys this specific aren't like that. This Differential Geometry of Lightlike Submanifolds (Frontiers in Mathematics) book is readable by simply you who hate the straight word style. You will find the info here are arrange for enjoyable reading experience without leaving possibly decrease the knowledge that want to deliver to you. The writer associated with Differential Geometry of Lightlike Submanifolds (Frontiers in Mathematics) content conveys objective easily to understand by a lot of people. The printed and e-book are not different in the written content but it just different in the form of it. So , do you nonetheless thinking Differential Geometry of Lightlike Submanifolds (Frontiers in Mathematics) is not loveable to be your top list reading book?

Darlene Gutierrez:

This book untitled Differential Geometry of Lightlike Submanifolds (Frontiers in Mathematics) to be one of several books in which best seller in this year, that is because when you read this reserve you can get a lot of benefit on it. You will easily to buy this particular book in the book retail outlet or you can order it by using online. The publisher in this book sells the e-book too. It makes you more easily to read this book, since you can read this book in your Touch screen phone. So there is no reason to you personally to past this reserve from your list.

Dawn Brown:

Do you like reading a reserve? Confuse to looking for your selected book? Or your book had been rare? Why so many issue for the book? But just about any people feel that they enjoy to get reading. Some people likes looking at, not only science book and also novel and Differential Geometry of Lightlike Submanifolds (Frontiers in Mathematics) or perhaps others sources were given information for you. After you know how the truly amazing a book, you feel wish to read more and more. Science e-book was created for teacher or maybe students especially. Those publications are helping them to include their knowledge. In some other case, beside science e-book, any other book likes Differential Geometry of Lightlike Submanifolds (Frontiers

in Mathematics) to make your spare time considerably more colorful. Many types of book like here.
